

Welcome to Teacher Dorothy's Kindergarten and First Grade

We are fourteen 5, 6 and 7 seven olds working, learning and playing together.

We started out the year **getting to know each other** through buddy activities. Each older child had a younger child as a buddy. The older buddies helped their younger buddies through the first few days of school.

The children made full size puppets of themselves and used them to introduce themselves to each other. The parents at the school Open House had fun finding their child somewhere in the classroom.

We did **Fall activities** like raising monarch butterflies in our science center, visiting an apple farm and picking apples and making applesauce with our apples.
